Intro

Metropolis

The **METROPOLIS** theme is a Beamer theme with minimal visual noise inspired by the HSRM BeamerTheme by Benjamin Weiss.

Enable the theme by loading

```
^^I^^I^^I\documentclass{beamer}  
^^I^^I^^I\usetheme{metropolis}  
^^I^^I
```

Note, that you have to have Mozilla's *Fira Sans* font and XeTeX installed to enjoy this wonderful typography.

Sections

Sections group slides of the same topic

```
^^I^^I\section{Elements}  
^^I^^I
```

for which **METROPOLIS** provides a nice progress indicator ...

Titleformats

Metropolis titleformats

METROPOLIS supports 4 different titleformats:

- Regular
- SMALLCAPS
- ALLSMALLCAPS
- ALLCAPS

They can either be set at once for every title type or individually.

This frame uses the `smallcaps` titleformat.

Potential Problems

Be aware, that not every font supports small caps. If for example you typeset your presentation with pdfTeX and the Computer Modern Sans Serif font, every text in smallcaps will be typeset with the Computer Modern Serif font instead.

This frame uses the `allsmallcaps` titleformat.

Potential problems

As this titleformat also uses smallcaps you face the same problems as with the `smallcaps` titleformat.

Additionally this format can cause some other problems. Please refer to the documentation if you consider using it.

As a rule of thumb: Just use it for plaintext-only titles.

This frame uses the `allcaps` titleformat.

Potential Problems

This titleformat is not as problematic as the `allsmallcaps` format, but basically suffers from the same deficiencies. So please have a look at the documentation if you want to use it.

Elements

```
^^I^^I^^IThe theme provides sensible defaults t  
^^I^^I^^I\emph{emphasize} text, \alert{accent}  
^^I^^I^^Ior show \textbf{bold} results.  
^^I^^I
```

becomes

The theme provides sensible defaults to *emphasize* text,
accent parts or show **bold** results.

Font feature test

- Regular
- *Italic*
- SMALLCAPS
- **Bold**
- ***Bold Italic***
- **BOLD SMALLCAPS**
- Monospace
- Monospace *Italic*
- **Monospace Bold**
- **Monospace Bold Italic**

Lists

Items

- Milk
- Eggs
- Potatos

METROPOLIS defines a custom beamer template to add a text to the footer. It can be set via

```
^^I^^I^^I\setbeamertemplate{frame footer}  
^^I^^I^^I{Manfred.Kraft@bluehende-Heimat.de}^^I  
^^I^^I^^I
```

Questions?

Backup slides

Sometimes, it is useful to add slides at the end of your presentation to refer to during audience questions.

The best way to do this is to include the `appendixnumberbeamer` package in your preamble and call `\appendix` before your backup slides.

METROPOLIS will automatically turn off slide numbering and progress bars for slides in the appendix.
